## Profile of a Typical Investor

The Fund may be suitable for investors seeking capital growth over at least a three to five year time horizon who understand and accept the associated level of risk attached to the Fund. For more information please refer to the section entitled "Risk Factors".

**An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.**

## Investment Objective and Policies

### Investment Objective

The investment objective of the Fund is to achieve long-term capital appreciation by investing in companies which will benefit from meeting the world's environmental and social challenges.

### Investment Policy

The Fund will seek to achieve its investment objective over a rolling period of any five years, by investing in a portfolio of equity securities quoted and/or traded on Regulated Markets worldwide, and the Fund will invest at least 67% of its assets in these securities.

### Investment Strategy

The Investment Manager intends to create an actively managed portfolio using a disciplined bottom up stock selection process. The investment opportunity that the strategy addresses is the superior growth that can compound over time from identifying companies adopting innovative approaches to tackling issues facing society and whose growth is not solely driven by the normal economic cycle. In particular, the Investment Manager will seek to identify companies which stand to benefit from their investment in the development of solutions to such societal challenges as water shortages, environmental degradation, waste management, the search for sustainable energy sources, healthcare needs, aging populations, demographic change and the achievement of financial inclusion and global equality. The analysis of companies is based on a large number of proven fundamental factors relevant to the individual target company (such as company growth potential, cash generation, and financial discipline) as well as on impact and sustainability characteristics. In the latter case, the Investment Manager will have regard to such factors as impact opportunity (the opportunity for creating positive change, and the potential extent of that change). For example, a company which invests in an innovative new solution to such issues as water shortages or waste management will have a significant "first mover" advantage and consequential potential for significant returns if it successfully develops and markets such solution(s). The Investment Manager will also have regard to financial sustainability, and long-term value creation when evaluating companies for investment.

The Investment Manager bases its investment strategy on the belief that a company can achieve impact in three ways: (i) providing innovative new products; (ii) broadening access of existing products through preferential pricing or supplying to places where it was not supplied before; or (iii) operating in a way that by itself creates substantial benefits, for example through the company's treatment of employees and the environment. Companies with a competitive advantage and a sustainable business model are sought after as they are more likely to offer visibility of earnings growth. The Investment Manager believes that companies which display the long term impact and sustainability characteristics outlined above will deliver better returns to investors in the medium to longer term.

The Fund's market exposure (which is exposure to the categories of Investments outlined below, and excludes cash held by the Fund) may vary in time and will typically range between 95%-100% for long positions and 0% for short positions of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light

of the investment objective of the Fund. These ranges are not limits and the actual exposures may from time to time fall outside these estimated ranges.

The Fund is actively managed by the Investment Manager in accordance with the criteria set out in this Supplement and will seek to achieve its objective on an active basis, without reference to a benchmark. The Company shall use the MSCI All Country World Investable Market Index for performance comparisons with the Fund on certain marketing materials (e.g. fund fact-sheets, investor reports, shareholder presentations etc), as deemed appropriate. The MSCI All Country World Investable Market Index is a free float adjusted market capitalisation weighted index that is designed to measure the performance of shares in large and mid-sized companies, denominated in various currencies, which are listed in both developed and emerging markets across the world. As at the date of this Supplement, the Investment Manager has determined that this benchmark may be used for such purposes. For the avoidance of doubt the Fund's objective is not to track the performance of an index or benchmark. The Fund does not charge any performance fees and, accordingly, no fees are paid to the Investment Manager on the basis of outperformance of an index or benchmark.

## Categories of Investments

With the exception of permitted investments in unlisted securities, Eligible CIS, FDIs, cash and cash equivalents (for example, overnight deposits for efficient portfolio management purposes as detailed below), investments of the Fund will be listed or traded on a Regulated Market.

**Equity:** The Fund may invest in a diversified portfolio of equity (such as common and/or preferred stock and/or rights) and/or equity-related instruments (such as GDRs and ADRs) of, or relating to companies in, or that derive a large proportion of their revenue from, global developed and emerging markets. Investment in or exposure to such securities will be on a long-only basis. The Fund will continuously invest at least 66.67% of its net assets in equity assets as defined in sec. 2 para. 8 of the German Investment Tax Act (2018).

**Eligible CIS:** The Fund may acquire units/shares of appropriate Eligible CIS, including exchange-traded funds and other sub-funds of the Company, where such Eligible CIS satisfy the requirements of the Central Bank. Investment in or exposure to such schemes will be on a long-only basis.

## Methods of Access and Efficient Portfolio Management

The Fund may gain exposure to the aforementioned equity and/or equity related securities and/or Eligible CIS through the use of FDIs and/or through investment in Convertible Debt Securities. A decision to use FDIs may be made for reasons such as efficiency (i.e. it may be cheaper to gain exposure to an underlying Investment than to purchase the Investment directly).

FDIs may also be used for efficient portfolio management purposes (for example, to assist in cash flow management, for cost effectiveness and for gaining exposure to certain markets and securities in a quicker and/or more efficient manner).

The FDIs which may be used by the Fund for such purposes include Warrants, Futures and Options.

For efficient portfolio management purposes the Fund may invest in and/or gain exposure to financial indices, hold cash and/or invest in money market collective investment schemes (to,

for example, equitise cash) subject to the conditions and limits of the Central Bank. Please see the section headed "Investment in FDI's and Efficient Portfolio Management" in the Prospectus for more information.

Any indices to which exposure is achieved will be in line with the investment strategy of the Fund. If utilised, details of the financial indices in which the Fund invests and/or gains exposure to will be found via [www.hermes-investment.com/financial-indices](http://www.hermes-investment.com/financial-indices).

For the avoidance of doubt, the Fund does not enter into repurchase and reverse repurchase agreements and/or engage in stock lending.

## **Cash Management**

The Fund's use of FDI's may result in it holding a portion of its Net Asset Value in cash or collateral holdings and in such circumstances the Fund may seek to implement an effective cash management policy. In pursuit of this policy the Fund may invest in collective investment schemes and money market instruments (such as short-dated government-backed securities, floating-rate notes, commercial paper, certificates of deposit, call accounts, treasury bills and treasury notes) and FDI's (of the type noted above).

## **Leverage and Global Exposure**

The Fund may be leveraged up to 10% of its Net Asset Value. That is, the total exposure associated with the investments of the Fund, including investments in FDI's, may amount to 110% of the Net Asset Value of the Fund and will be calculated using the commitment approach.

## **Currency Hedging Policy**

The Fund may enter into transactions for the purposes of hedging the currency exposure in accordance with the sections entitled "Hedging at Portfolio Level", "Hedging at Share Class Level against Base Currency" and "Hedging at Share Class Level against Portfolio Currencies" in the Prospectus.

## Risk Factors

Potential investors and Shareholders are referred to the section of the Prospectus entitled "Risk Factors". Regard should be had to the risks outlined under the heading "General Risk Factors" as each of these risk factors will be relevant in the context of an investment in the Fund.

In addition, investors should specifically refer to the following risks that appear under the heading "Fund Specific Risk Factors", as these relate to risks arising as a result of the Fund's Investments and/or portfolio management techniques:

## Dealing Information

<b>Dealing Deadline</b>	9.30 am (Irish time) on the relevant Dealing Day.
<b>Valuation</b>	The Valuation Point will be 12 noon (Irish time) on each Dealing Day. The value of instruments or securities which are quoted, listed or dealt in on a Regulated Market shall (save in certain specific cases) be the last traded price on such Regulated Market as at the Valuation Point, or the latest mid-market price as at the Valuation Point when no last traded price is available.
<b>Income Equalisation</b>	The Fund operates Income Equalisation.
<b>Timing of Payment for Subscriptions</b>	Payment must be received by the Administrator by close of business on the third Business Day following the applicable Dealing Day.
<b>Timing of Payment for Redemptions</b>	Redemption proceeds will be paid on the third Business Day following the relevant Dealing Day.
<b>Administrator's Fee</b>	Up to 0.04% of the Net Asset Value of the Fund accrued and calculated daily and payable monthly in arrears. The Fund will also pay other costs to the Administrator such as transfer agency charges and transaction fees. Details are set out in the Prospectus in the section entitled "Fees and Expenses".
<b>Depositary's Fee</b>	The Fund will bear transaction and custody charges which are calculated on the basis of the assets held. The Fund will also pay a depositary fee of up to 0.0110% of its Net Asset Value to the Depositary. The Fund will also pay other costs to the Depositary such as out-of-pocket expenses and sub-custodial fees and expenses. Details are set out in the Prospectus in the section entitled "Fees and Expenses".
<b>Other Fees and Expenses</b>	All fees and expenses, not exceeding GBP50,000, relating to the establishment of the Fund, including the fees of the advisers to the Company, such as legal advisers, will be borne by the Fund and will be amortised over the first five financial years of the lifetime of the Fund or such other period as the Directors may determine and advise to Shareholders, for example via the Company's financial statements. The Fund shall bear its attributable proportion of the organisational and operating expenses of the Company (including the establishment expenses of the Fund). Details of these and of other fees and expenses relating to the Company are set out in the Prospectus in the section entitled "Fees and Expenses".
<b>Compulsory Redemption Threshold</b>	All the Shares of the Fund may be compulsorily redeemed at the discretion of the Directors if, after the first anniversary of the first issue of Shares of the Fund, the Net Asset Value of the Fund falls below GBP100,000,000 for any period of time.
